## DRILLING COMMENCED TARGETING NICKEL SULPHIDES AT MCKENZIE SPRINGS

---

### Highlights

- Diamond drilling targeting nickel sulphide mineralisation is underway at McKenzie Springs
- Three holes planned to test strong Fixed Loop Electromagnetic (FLEM) conductors
- McKenzie Springs Project contains under-explored layered mafic-ultramafic intrusions, situated along strike to Panoramic Resources' Savannah Nickel-Copper Mine

**Fin Resources Limited (ASX: FIN) (Fin or the Company)** is pleased to announce that diamond drilling has commenced at the McKenzie Springs Project, prospective for Nickel, Copper and Platinum Group Element (PGE) mineralisation. The planned program includes three diamond drill holes (for a total of 850m) designed to intersect modelled strong high priority conductors defined from Fixed Loop Electromagnetic (FLEM) geophysical surveys.

DDH1 has been engaged for the drill program. Drilling of the first hole (FNDD001) has commenced, with a planned depth of 470m. All drillholes will be cased with PVC to allow completion of DHEM surveys to assist with the identification of any sulphide mineralisation around the drill hole. Refer to the Company's announcement *McKenzie Springs Project – Drilling Update* dated 17<sup>th</sup> August 2020 for further detail on the drilling program.

**Competent Persons Statement**

The information in this announcement that relates to Exploration Results and other technical information complies with the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (the JORC Code) and has been compiled and assessed under the supervision of Ms Felicity Repacholi-Muir, an independent consultant to the Company. Ms Felicity Repacholi-Muir is a Member of the Australian Institute of Geoscientists. She has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code. Ms Repacholi-Muir consents to the inclusion in this announcement of that matters based on her information in the form and context in which it appears.
