### MARCH 2018 QUARTERLY REPORTS

---

#### Highlights

- **The Company has entered into Joint Venture Agreements to acquire majority interests in 3 resource exploration tenements located in Western Australia (Projects)**
- **The Company has been renamed Fin Resources Limited**
- **The Company will appoint two new experienced directors - Mr. Justin Tremain and Mr. Andrew Radonjic**
- **The Company issued a prospectus (Prospectus) to raise \$1m at \$0.02 per share**
- **The Company will consolidate its capital on a 1:2 basis**

The Board of Fin Resources Limited (**the Company**) (formally Orca Energy Limited) provides the following commentary and Appendix 5B for the March 2018 Quarter.

#### Acquisition of Western Australian Resource Projects

The Company has entered into 3 Joint Venture Agreement (**JV Agreements**) to acquire majority interests in exploration tenements located in Western Australia (**Projects**). They include:

- a JV Agreement with Sammy Resources Pty Ltd (a subsidiary of Cazaly Resources Limited (ASX: CAZ)) to acquire a 51% interest in exploration licence E80/4808 (**McKenzie Springs Project**), which is considered to be prospective for magmatic Ni-Cu sulphide and Platinum Group Element (PGE) mineralisation, and the right to farm-in to an additional 19% interest in the Project;
- a JV Agreement with Neon Space Pty Ltd to acquire a 51% interest in exploration licence E20/900 (**South Big Bell Project**), which is considered to be prospective for gold, and the right to farm-in to an additional 19% interest in the Project; and
- a JV Agreement with Crosspick Resources Pty Ltd to acquire a 51% interest in exploration licence E28/2652 (**Sentinel Project**), which is considered to be prospective for gold, and the right to farm-in to an additional 19% interest in the Project.

[www.finresources.com.au](http://www.finresources.com.au)

The consideration payable for an initial interest of 51% in each Project and the right to farm-in to an additional 19% interest is set out below.

Project	Shares	Options	Royalty	Farm-in right
McKenzie Springs Project	5,000,000	10,000,000	Nil	Additional 19% interest by spending \$500,000 within 18 months
South Big Bell Project	2,500,000	5,000,000	2% of net smelter return	Additional 19% interest by spending \$1,000,000 within 3 years
Sentinel Project	2,500,000	5,000,000	2% of net smelter return	Additional 19% interest by spending \$1,000,000 within 3 years
<b>Total</b>	<b>10,000,000</b>	<b>20,000,000</b>	<b>2% of net smelter return on South Big Bell and Sentinel Projects</b>	<b>\$2,500,000 for an additional 19% interest in the Projects</b>

The options will be exercisable at \$0.03 each and will expire 3 years after issue (**New Options**).

It is expected that the proposed acquisition will complete on or around 26 April 2018.

## Projects

The Company proposes to acquire the McKenzie Springs Project, the South Big Bell Project and the Sentinel Project, brief summaries of which are set out below.

### McKenzie Springs Project

The McKenzie Springs Project is located 85km northeast of the township of Halls Creek in the Kimberley region of Western Australia. The Project comprises a single granted Exploration Licence, namely E80/4808. The Project hosts mafic and ultramafic intrusions that are prospective for magmatic Ni-Cu sulphide and Platinum Group Element (PGE) mineralisation. Additionally, the Tickalara Metamorphic geology within the project is prospective for graphite mineralisation.

Nickel mineralisation within the McKenzie Springs Project is associated with the basal contact of mafic-ultramafic rocks in a similar geological setting to the Savannah Nickel Mine owned by Panoramic Resources Ltd (ASX: PAN) to the north. Rockchip sampling of gossan outcrops in conjunction with limited historical drilling has confirmed the potential for the presence of nickel mineralisation within the Project. Recent work completed by Cazaly Resources Ltd (Cazaly, ASX: CAZ) includes the acquisition and processing of historic airborne electromagnetic (GEOTEM) data which covers the majority of the prospective area within the McKenzie Springs Project. The geophysical interpretation, coupled with known geology and geochemical survey results highlighted numerous conductive targets within both the prospective nickel and graphite corridors.

During a reconnaissance field trip at the McKenzie Springs Project, Cazaly located and sampled an outcrop of graphitic schist. Subsequent research of historical data identified further evidence of graphite bearing units associated with high grade metamorphic rocks of the Tickalara Metamorphic suite which trend through the tenement for approximately 15km. Petrographic analysis of a composite sample confirmed that the graphite is high grade flake graphite with the potential to be chemically converted into graphene. One of the targets highlighted from the GEOTEM survey included conductive stratigraphy which is considered potentially representative of shallow, high conductive graphite units being the same stratigraphic continuation of the graphitic schist sampled by Cazaly. The Company is currently reviewing all available data, details of this review will be included in the Prospectus.

Exploration work will focus on defining drill targets for both nickel and graphite mineralisation.

### **South Big Bell Project**

The South Big Bell Project is located 25km west of the township of Cue in the Murchison Goldfields. The Project comprises a single granted Exploration Licence, namely E20/0900. The Project lies to the south of the Big Bell Gold Mine, currently held by Westgold Resources Ltd (ASX:WGX) which forms part of their Central Murchison Gold Project. The South Big Bell tenement covers the southern extension of the Mount Magnet-Meekatharra Greenstone Belt. Limited exploration work has been completed on the Project.

### **Sentinel Project**

The Sentinel Project is located 130km east-northeast of the township of Kalgoorlie in the Eastern Goldfields. The Project comprises a single granted Exploration Licence, namely E28/2652. The Project lies within the southern Laverton Tectonic Zone, a regional scale shear/fault system that extends as a set of NNE and NNW trending structures from Laverton toward the Pinjin area.

The area has been explored for gold by a number of companies since the 1980s, exploration including predominantly reconnaissance and surface geochemical programs, and limited geochemical drill traverses through covered terrain. Mapping has located minor gold diggings at the Sentinel Prospect on the northern margin of Lake Rebecca.

Further details of the Projects can be found in the Prospectus dated 4 April 2018 (also available on the Company's website [orcaenergy.com.au](http://orcaenergy.com.au)).

## Corporate

In connection with the proposed acquisitions the Company sought shareholder approval on 13 April 2018 to:

- (a) consolidate its securities on a 1 for 2 basis;
- (b) issue approximately 50,000,000 shares at \$0.02 each to raise approximately \$1,000,000 via a public offer under the Prospectus (**Public Offer**);
- (c) appoint Mr. Justin Tremain and Mr. Andrew Radonjic as non-executive directors, with Mr. Greg Bandy and Mr. Nathan Rayner stepping down as directors;
- (d) issue 12,000,000 New Options to certain advisers and brokers;
- (e) issue 8,000,000 performance rights / options to proposed and continuing officers of the Company;
- (f) change its name to Fin Resources Limited; and
- (g) re-comply with Chapters 1 and 2 of the Listing Rules.

All resolutions put to the Extraordinary General Meeting of members were carried.

## Public Offer

To facilitate the Company's re-compliance with Chapters 1 and 2 of the Listing Rules and to support the proposed exploration program following completion of the proposed acquisitions the Company intends to offer approximately 50,000,000 shares to the public at an issue price of \$0.02 each under the Prospectus to raise approximately \$1,000,000 before costs (**Public Offer**). The Prospectus was lodged with ASIC on 4 April 2018.

## Board Changes

At completion of the proposed acquisitions, Mr Greg Bandy and Mr Nathan Rayner will step down as directors, and Mr Justin Tremain and Mr. Andrew Radonjic will be appointed as non-executive directors.

## Change of Company Name and ASX code

We refer to the Shareholder approval granted at the Extraordinary General Meeting held on 13 April 2018 to change the name of the Company from Orca Energy Limited to Fin Resources Limited. The change of the Company name process has now been completed and the Australian Securities and Investment Commission has recorded the change of Company name effective from 13 April 2018. Upon reinstatement to official quotation, the Company's new ASX code will be **FIN**.

## Cash at Bank

At the end of the Quarter the Company had cash at bank of \$3.6m. Refer to the attached Appendix 3B for further details.

### Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

+ See chapter 19 for defined terms.
