

MARCH 2022 QUARTERLY REPORT

The Board of Fin Resources Limited (**ASX: FIN**) (**Fin** or the **Company**) is pleased to provide its Quarterly Activities Report for the period ending 31 March 2022, along with the Appendix 5B for the same period.

Sol Mar Scoping Study

The positive Scoping Study completed in the previous quarter was used to facilitate discussion with potential partners. Several potential off-takers of green chemicals expressed interest and discussions continue.

World Class Renewable Energy Potential

Outside of salt, there has been interest from groups seeking opportunities in hydrogen and ammonia production based on solar PV.

An order for the Sodar weather station was placed with delivery expected in June 2022. This will provide the baseline wind and solar irradiance data used as a basis of design and to validate the renewable energy economics. In the interim, internal studies have been done to understand the attractiveness of the opportunity.
