3. DETAILS OF THE OFFER

3.1 Offer

By this Prospectus, the Company offers for subscription approximately 728,847,863 new Shares and 728,847,863 new Options pursuant to a pro-rata renounceable entitlement issue to Shareholders of one (1) new Share for every one (1) Share held on the Record Date at an issue price of \$0.001 per Share together with one (1) free Option for each new Share issued. Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company (and assuming no existing Options are exercised prior to the Record Date), the maximum number of Shares and Options to be issued pursuant to the Offer is approximately 728,847,863. The Offer will raise approximately \$728,848. The purpose of the Offer and the use of funds raised are set out in Section 4 of this Prospectus.

Holders of existing Options will not be entitled to participate in the Offer. The Company currently has 661,277,289 Options on issue as at the date of this Prospectus, which Options may be exercised by the Option holder prior to the Record Date in order to participate in the Offer.

3.2 Rights Trading

Entitlements to Shares and Options pursuant to the Offer are renounceable and accordingly, rights will be traded on ASX. Details on how to sell your rights are set out in Section 3.3 below.

3.3 How to Accept the Offer

Your acceptance of the Offer must be made on the Entitlement and Acceptance Form accompanying this Prospectus. Your acceptance must not exceed your Entitlement as shown on that form. If it does, your acceptance will be deemed to be for the maximum Entitlement.

You may participate in the Offer as follows:

- (a) if you wish to accept your Entitlement in full:
 - (i) complete the Entitlement and Acceptance Form, filling in the details in the spaces provided; and
 - (ii) attach your cheque for the amount indicated on the Entitlement and Acceptance Form; or
- (b) if you only wish to accept part of your Entitlement:
 - (i) fill in the number of Shares you wish to accept in the space provided on the Entitlement and Acceptance Form. For each new Share issued, Shareholders will also receive one (1) free Option; and
 - (ii) attach your cheque for the appropriate application monies (at \$0.001 per Share);
- (c) if you do not wish to accept all or part of your Entitlement, you are not obliged to do anything.

Alternatively, you can trade your Entitlement rights as follows:

- (a) to sell any or all of your Entitlement you will need to instruct a stockbroker to sell the Entitlement rights which you wish to renounce. If you wish to do so you must instruct your stockbroker by completing the panel headed "Instructions to your Stockbroker" on the back of the Entitlement and Acceptance Form and lodge that form with your stockbroker. Your stockbroker must sell those rights before the rights trading ceases; or
- (b) if you wish to transfer all or part of your rights to another person other than on ASX you must forward a completed renunciation form (which you can obtain by contacting the Company) together with the Entitlement and Acceptance Form.

All cheques must be drawn on an Australian bank or bank draft made payable in Australian currency to "Monitor Energy Limited – Trust Account" and crossed "Not Negotiable".

Your completed Entitlement and Acceptance Form and cheque must reach the Company's share registry no later than 5.00pm WST on the Closing Date.

Please note that all payments using the Bpay payment option must be made by 4.00pm (WST) on the Closing Date.

3.4 Minimum Subscription

The minimum subscription in respect of the Offer is \$728,848.

3.5 Underwriting

The Offer is conditionally underwritten by Patersons Securities Limited.

Refer to Section 7.2 of this Prospectus for further details of the terms of the underwriting.

The potential effect of the underwriting on the Company is set out in Section 7.2.3 of this Prospectus. The Underwriter has however confirmed to the Company that, in the event that no Shareholder takes up their Entitlement and the Underwriter is required to subscribe for 100% of the Shares and Options under the Shortfall, that neither the Underwriter, nor any of its sub-underwriters, individually, will have a voting power greater than 20% in the Company. Refer to Section 7.2.3 of this Prospectus for further detail.

3.6 Shortfall

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall. Shareholders who wish to apply for Shares (together with one (1) free Option for each Share) above their Entitlement can complete the Shortfall Application Form attached to the back of this Prospectus and return it, together with a cheque for the value of those Shortfall Shares (at \$0.001 per Share) to the Company.

The offer of the Shortfall is a separate offer pursuant to this Prospectus. The issue price of any Shares (together with one (1) free option for each new Share issued) offered pursuant to the Shortfall Offer shall be \$0.001 cents being the price at which the Entitlement has been offered to Shareholders pursuant to this

Prospectus. The Shortfall shall be placed at the discretion of the Underwriter in consultation with the Company. The Company reserves the right to allot to an applicant a lesser number of Shortfall Shares than the number for which the applicant applies, or to reject an application, or to not proceed with placing the Shortfall.

3.7 Australian Securities Exchange Listing

Application for official quotation by ASX of the Shares and Options offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If approval is not obtained from ASX before the expiration of 3 months after the date of issue of the Prospectus, (or such period as modified by the ASIC), the Company will not issue any Shares and Options and will repay all application monies for the Securities within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant official quotation to the Shares and/or Options is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

3.8 Allotment of Shares and Options

Shares and Options issued pursuant to the Offer will be allotted as soon as practicable after the Closing Date. The Company will allot the Shares and Options on the basis of a Shareholder's Entitlement. Where the number of Shares and Options issued is less than the number applied for, or where no allotment is made, surplus application monies will be refunded without any interest to the applicant as soon as practicable after the Closing Date.

Pending the allotment and issue of the Shares and Options or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

3.9 Overseas Shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

Shareholders resident in New Zealand should consult their professional advisors as to whether any government or other consents are required, or other formalities need to be observed, to enable them to exercise their Entitlements under the Offer.

Pursuant to ASX Listing Rule 7.7, the Company has appointed Patersons Securities Limited as the Nominee to sell the Entitlements to which non-qualifying foreign shareholders are entitled. The net proceeds (if any) of the sale of each

Entitlement will then be forwarded by the Company's share register as soon as practicable to the non-qualifying foreign shareholders. There can be no guarantee that a market for the Entitlement of non-qualifying shareholders will exist and the Nominee is under no obligation to take up any Entitlement for which it is unable to find a qualified buyer. The Nominee will have the absolute and sole discretion to determine the timing and the price at which the Entitlements may be sold and the manner in which any sale is made.

Neither the Company nor the Nominee will be liable for a failure to sell Entitlements or to sell Entitlements at any particular price.

3.10 Taxation Implications

The Directors do not consider that it is appropriate to give Applicants advice regarding the taxation consequences of applying for Securities under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation consequences. The Company, its advisers and officers, and the Underwriter do not accept any responsibility or liability for any taxation consequences to Applicants. Potential Applicants should, therefore, consult their own professional tax adviser in connection with the taxation implications of the Securities offered pursuant to this Prospectus.

3.11 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will not be issuing share certificates. The Company will apply to ASX to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares and Options allotted to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

3.12 Privacy Act

If you complete an application for Securities, you will be providing personal information to the Company (directly or by the Company's share registry). The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder, facilitate distribution payments and corporate communications to you as a Shareholder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's share registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company or its share registry if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASTC Settlement Rules. You should note that if you do not provide the information required on the application for Shares, the Company may not be able to accept or process your application.

4. UPDATE AND PURPOSE AND EFFECT OF THE OFFER

4.1 Update on the Company and Purpose of the Offer

The purpose of the Offer is to raise approximately \$728,848 (before expenses). The funds raised, after deducting the expenses of the Offer (of approximately \$106,452) and when combined with the funds received under the Converting Loans (\$100,000), will be allocated to the general working capital of the Company to be used for the general management of the Company's business. The working capital will be used:

- (a) to meet the Company's administrative expenses both in Australia and at the Company's Kyrgyz operations;
- (b) fund the continued exploration of the Company's assets in the Kyrgyz Republic; and
- (c) continue the investigations and review of various potential project acquisitions in the Republic of Indonesia.

On 30 April 2009, the Directors announced in the Quarterly Activities Report that they were in the process of seeking to identify a near term oil producing opportunity in the Republic of Indonesia. The Company continues to review potential projects in Indonesia and remains in discussions with other parties regarding those projects. Some of the funds raised under the Offer will be used to assist the Directors in their ongoing investigations into those projects. In the event that the Directors come to any agreement in relation to any such project the Directors will notify Shareholders and ASX.

4.2 Effect of the Offer and Pro Forma Consolidated Balance Sheet

- (c) increase the number of Options on issue from 661,277,289 Options to 1,390,125,152 Options following completion of the Offer.

They have been prepared on the assumption that all Shares pursuant to the Offer in this Prospectus are issued.

The unaudited Consolidated Balance Sheets have been prepared to provide Shareholders with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

5. RIGHTS AND LIABILITIES ATTACHING TO THE SHARES

5.1 Terms of Shares

The following is a summary of the more significant rights and liabilities attaching to Shares to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Company's Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

5.1.1 General Meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with Section 249D of the Corporations Act and the Constitution of the Company.

5.1.2 Voting Rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have a fraction of a vote equivalent to the proportion which the amount paid up bears to the total issue price for the share.

5.1.3 Dividend Rights

The Directors may from time to time declare and pay or credit a dividend in accordance with the Corporations Act. Subject to any special right as to dividends attaching to a share, all dividends will be declared and paid according to the proportion which the amount paid on the Share is to the total amount payable in respect of the Shares (but any amount paid during the period in respect of which a dividend is declared only entitles the Shareholder to an apportioned amount of that dividend as from the date of payment). The Directors may from time to time pay or credit to the Shareholders such interim dividends as they may determine. No dividends shall be payable except out of profits. A determination by the Directors as to the profits of the Company shall be conclusive. No dividend shall carry interest as against the Company.

The Directors may from time to time grant to Shareholders or any class of shareholders the right to elect to reinvest cash dividends paid by the Company by subscribing for Shares in the Company on such terms and conditions as the Directors think fit. The Directors may, at their discretion, resolve in respect of any dividend which it is proposed to pay or to declare on any Shares of the

Company, that holders of such Shares may elect to forgo their right to the whole or part of the proposed dividend and to receive instead an issue of Shares credited as fully paid to the extent and on the terms and conditions of the Constitution. The Directors may set aside out of the profits of the Company such amounts as they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

5.1.4 Winding-Up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders. The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in respect of which there is any liability.

5.1.5 Transfer of Shares

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the Listing Rules.

5.1.6 Future Increase in Capital

The allotment and issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

5.1.7 Variation of Rights

Under Section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

5.2 Terms of Options

The terms and conditions of the Options are as follows:

(a) **Exercise Price**

The exercise price of each Option is 2.5 cents per Share.

(b) **Entitlement**

Each Option shall entitle the holder the right to subscribe (in cash) for one Share in the capital of the Company.

(c) **Option Period**

The Options will expire at 5.00pm WST on 31 August 2011. Subject to clause (g), Options may be exercised at any time prior to the expiry date and Options not so exercised shall automatically expire on the expiry date.

(d) **Ranking of Share Allotted on Exercise of Option**

Each Share allotted as a result of the exercise of any Option will, subject to the Constitution of the Company, rank in all respects *pari passu* with the existing Shares in the capital of the Company on issue at the date of allotment.

(e) **Voting**

A registered owner of an Option (**Option Holder**) will not be entitled to attend or vote at any meeting of the members of the Company unless they are, in addition to being an Option Holder, a member of the Company.

(f) **Transfer of an Option**

Options are transferable at any time prior to the expiry date. This right is subject to any restrictions on the transfer of Options that may be imposed by the ASX in circumstances where the Company is listed on the ASX.

(g) **Method of Exercise of an Option**

(i) The Company will provide to each Option Holder a notice that is to be completed when exercising the Options (**Notice of Exercise of Options**). Options may be exercised by the Option Holder by completing the Notice of Exercise of Options and forwarding the same to the Company Secretary to be received prior to the expiry date. The Notice of Exercise of Options must state the number of Options exercised and the consequent number of ordinary shares in the capital of the Company to be allotted; which number of Options must be a multiple of 2,500 if only part of the Option Holder's total Options are exercised, or if the total number of Options held by an Option Holder is less than 2,500, then the total of all Options held by that Option Holder must be exercised.

(ii) The Notice of Exercise of Options by an Option Holder must be accompanied by payment in full for the relevant number of shares being subscribed, being an amount of 2.5 cents(\$0.025) per Share.

(iii) Subject to paragraph (g)(i) above, the exercise of less than all of an Option Holder's Options will not prevent the Option Holder from exercising the whole or any part of the balance of the

Option Holder's entitlement under the Option Holder's remaining Options.

- (iv) Within 14 days from the date the Option Holder properly exercises Options held by the Option Holder, the Company shall issue and allot to the Option Holder that number of Shares in the capital of the Company so subscribed for by the Option Holder.
- (v) The Company will within 3 business days from the date of issue and allotment of Shares pursuant to the exercise of an Option, apply to the ASX for, and use its best endeavours to obtain, Official Quotation of all such Shares, in accordance with the Corporations Act and the Listing Rules of the ASX.
- (vi) The Company will generally comply with the requirements of the Listing Rules in relation to the timetables imposed when quoted Options are due to expire. Where there shall be any inconsistency between the timetables outlined herein regarding the expiry of the Options and the timetable outlined in the Listing Rules, the timetable outlined in the Listing Rules shall apply.

(h) **ASX Listing**

Application for quotation of the Options on the ASX will be made.

(i) **Reconstruction**

In the event of a reconstruction (including a consolidation, sub-division, reduction or return) of the issued capital of the Company, all rights of the Option Holder will be changed to the extent necessary to comply with the Listing Rules applying to the reconstruction of capital, at the time of the reconstruction.

(j) **Participation in New Share Issues**

There are no participating rights or entitlements inherent in the Options to participate in any new issues of capital which may be made or offered by the Company to its shareholders from time to time prior to the expiry date unless and until the Options are exercised. The Company will ensure that during the exercise period, the record date for the purposes of determining entitlements to any new such issue, will be at least nine (9) business days after such new issues are announced (or such other date if required under the Listing Rules) in order to afford the Option Holder an opportunity to exercise the Options held by the Option Holder.

(k) **No Change of Options Exercise Price or Number of Underlying Shares**

There are no rights to change the exercise price of the Options or the number of underlying Shares.

6. RISK FACTORS

Applicants should consider the risk factors described below, together with information contained elsewhere in this Prospectus, before deciding whether to apply for Shares. Potential Applicants should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.1 Operating Risks

The current and future operations of the Company, including exploration, appraisal and possible production activities may be affected by a range of factors, including:

- (a) adverse geological conditions;
- (b) limitations on activities due to seasonal weather patterns and cyclone activity;
- (c) unanticipated operational and technical difficulties encountered in geophysical surveys, drilling and production activities;
- (d) mechanical failure of operating plant and equipment;
- (e) industrial and environmental accidents, industrial disputes and other force majeure events;
- (f) unavailability of aircraft or drilling equipment to undertake airborne electromagnetic and other geological and geophysical investigations;
- (g) unexpected shortages or increases in the costs of labour, consumables, spare parts, plant and equipment; and
- (h) inability to obtain necessary consents or approvals.

6.2 Going Concern Risk

While completing the audit review of the Company's half yearly financial report for the half-year ended 31 December 2008, the Company's auditor, Stantons International noted the following:

"The consolidated entity has incurred a net loss after tax for the half year ended 31 December 2008 of \$2,072,808 (December 2007: \$691,540) and experienced net cash outflows from operating activities of \$1,291,102 (December 2007: \$501,970). As at 31 December 2008, the consolidated entity had net current assets of \$474,461 (June 2008: \$1,003,990).

The Directors believe that there are sufficient funds to meet the consolidated entity's working capital requirements. However, the Directors recognise the ability of the consolidated entity to continue as a going concern and to pay their debts as and when they fall due is dependent on the ability of the consolidated entity to secure additional funding.

During the period, the consolidated entity successfully raised \$1,234,794 gross of capital raising costs via the issue of ordinary fully paid shares, options to acquire fully paid ordinary shares and the conversion of share options.

Based on the above, the consolidated entity is confident that it will successfully raise additional capital funds to meet its financial obligations in the future period.

The Directors have reviewed the business outlook and are of the opinion that the use of the going concern basis of accounting is appropriate as they believe the consolidated entity will achieve the matters set out above. As such, the Directors believe that they will continue to be successful in securing additional funds through debt or equity issues as and when the need to raise working capital arises.

Notwithstanding this, there is uncertainty whether the consolidated entity will be able to continue as a going concern.

Should the consolidated entity be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the normal course of business and at amounts different from those stated in the financial report.”

In the event that the Offer is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern.

6.3 Future funding requirements

In order to develop its business, including the exploration and development of any oil and gas discoveries, the Company will require additional funding to the funds being raised under the Offer. In addition, it is highly likely that regardless of the successful completion of the Offer, the Company will also need to undertake an additional capital raising to raise additional funds to meet the administration and working capital costs in the medium to long term. There can be no assurance that any such equity or debt funding will be available for the Company on favourable terms or at all. If adequate funds are not available on acceptable terms, there is significant uncertainty as to whether the Company can continue as a going concern.

6.4 Future performance of business activities

The value of the Company’s business activities is subject to the various and unpredictable influences of the market it operates in and the economy in general. Accordingly, adverse economic and market conditions may be experienced by the Company which are outside of its control and may have an adverse effect on the Company.

6.5 Exploration Risk

There is no assurance that oil and/or gas will be discovered in the areas in which the Company has an interest. Even if further oil and/or gas is discovered in those areas, there is no assurance that commercial quantities of oil and/or gas can be recovered from the Company’s permits.

6.6 Oil and gas price fluctuations

The price for oil and gas will depend on available markets at acceptable prices and transmission, distribution and other costs. Any substantial decline in the prices of oil and gas or an increase in transmission, distribution or other costs could have a material adverse effect on the Company.

6.7 Drilling and operating risks

The Company's operations may be curtailed, delayed or cancelled as a result of weather conditions, mechanical difficulties, shortage or delays in the delivery of rigs and/or other equipment and compliance with governmental requirements.

Fire, explosions, blow-outs, pipe failure, well collapse, abnormally pressure formations and environmental spills or leakage of petroleum liquids, gas leaks, ruptures or discharges of toxic gases, could cause the Company substantial loss due to the cost of personal injury or loss of life, damage to or destruction of property, natural resources and equipment, pollution or other environmental damage, cleanup responsibilities, regulatory investigation and penalties and suspension of operations.

Any of these events might also give rise to claims against the Company.

6.8 Ability to exploit success

Any successful exploitation of discoveries would require obtaining the necessary production permit and the relevant government approvals as required by the Government of the Kyrgyz Republic. The required approvals may be issued at the discretion of the relevant authorities and might be issued subject to conditions or preconditions.

6.9 Economic Risks

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and future production activities, as well as on its ability to fund those activities.

6.10 Market conditions

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities and in particular, resources stocks. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

6.11 Security Investments

Applicants should be aware that there are risks associated with any securities investment. Securities listed on the stock market, and in particular securities of mining and exploration companies have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of the securities regardless of the Company's performance.

Exploration in itself is a speculative endeavour, while mining operations can be hampered by force majeure circumstances and cost overruns for unforeseen events.

6.12 Legislative changes, Government policy and approvals

Changes in government regulations and policies may adversely affect the financial performance of the Company. For example, any increased rentals under the Mining Act may impact on the Company's actual financial statements. The Company's capacity to explore and mine, in particular the

Company' ability to explore and mine any reserves, may be affected by changes in government policy, which are beyond the control of the Company.

6.13 Future Capital Requirements

The Company's ongoing activities will require substantial expenditures. There can be no guarantee that the funds raised through the Offer will be sufficient to successfully achieve all the objectives of the Company's overall business strategy. If the Company is unable to continue to use debt or equity to fund expansion after the substantial exhaustion of the net proceeds of the Offer, there can be no assurances that the Company will have sufficient capital resources for that purpose, or other purposes, or that it will be able to obtain additional fundraising on terms acceptable to the Company or at all. Any additional equity financing may be dilutive to shareholders and any debt financing if available may involve restrictive covenants, which may limit the Company's operations and business strategy.

The Company's failure to raise capital if and when needed could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

6.14 Reliance on Key Personnel and Employees

The Company's prospects depend in part on the ability of its executive officers, senior management and key consultants to operate effectively, both independently and as a group. To manage its growth, the Company must attract and retain additional highly qualified management, technical, sales and marketing personnel and continue to implement and improve operational, financial and management information systems. Investors must be willing to rely to a significant extent on management's discretion and judgement, as well as the expertise and competence of outside contractors.

In addition, Western Australia is currently experiencing a shortage of skilled labour including those skills utilised in the mining industry. The Company cannot guarantee that its mining and exploration activities will not be negatively affected by an inability to employ appropriately skilled staff.

An investment in the Company is not risk free and prospective new investors should consider the risk factors described below, together with information contained elsewhere in the Prospectus, before deciding whether to apply for Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.15 Sovereign risks

The Company is currently conducting its exploration activities in the Kyrgyz Republic, which achieved independence from the USSR in 1991. Although the Government in the Kyrgyz Republic is currently stable, the country has a history of civil uprising. The Company will continue to monitor the political climate in the country.

6.16 International Operations

International sales and operations are subject to a number of risks, including:

- potential difficulties in enforcing agreements and collecting receivables through foreign local systems;
- potential difficulties in protecting intellectual property;
- increases in costs for transportation and shipping; and
- restrictive governmental actions, such as imposition of trade quotas, tariffs and other taxes.

Any of these factors could materially and adversely affect the Company's business, results of operations and financial condition.

6.17 Foreign Exchange

In the future a proportion of the Company's revenues, cash inflows, other expenses, capital expenditure and commitments may be denominated in foreign currencies.

To comply with Australian reporting requirements the income, expenditure and cash flows of the Company will need to be accounted for in Australian dollars. This will result in the income, expenditure and cash flows of the Company being exposed to the fluctuations and volatility of the rate of exchange between other currencies and the Australian dollar, as determined in international markets.

Furthermore, the Company has decided to not put in place any hedges in relation to foreign exchange. This may result in the Company being exposed to exchange rate risk, which may have an adverse impact on the profitability and/or financial position of the Company.

On or about 19 May 2009, the Company entered into a number of converting loan agreements with a number of clients of Patersons (**Lenders**) to borrow \$100,000 (**Converting Loan Agreements**).

Under the Converting Loan Agreements, each Lender has agreed to provide a loan to Monitor and agreed to convert those loans into Shares and Options, subject to Monitor being in compliance with its obligations under the ASX Listing Rules and the Corporations Act. In the event that the Converting Loans cannot be converted into Shares (and Options) the Converting Loans shall be repayable on 31 August 2009. The Loans are unsecured and no interest is payable on the Loans.

7.2.2 Underwriting Agreement

Pursuant to an agreement between Patersons Securities Limited (**Underwriter**) and the Company (**Underwriting Agreement**), the Underwriter has agreed to fully underwrite the Offer for 728,847,863 Shares and 728,847,863 free attaching Options (**Underwritten Securities**).

Pursuant to the Underwriting Agreement, the Company has agreed to:

- (a) pay the Underwriter an underwriting fee of 5% of the amount raised pursuant to the Offer; and

The Agreement is conditional upon satisfaction of the following conditions on or before the date of the lodgement of the Prospectus:

- (d) the Prospectus being lodged with ASIC on or before 19 May 2009; and
- (e) the Underwriter entering into sub-underwriting agreements with sub-underwriters on terms and conditions satisfactory to the Underwriter (in its absolute discretion).

The obligation of the Underwriter to underwrite the Offer is subject to certain events of termination. The Underwriter may terminate its obligations under the Underwriting Agreement on the occurrence of specified events including:

The Underwriting Agreement also contains a number of indemnities, representations and warranties from the Company to the Underwriter that are considered standard for an agreement of this type.

7.2.3 Disclosure of Underwriter Voting Power

As set out above, the Offer is fully underwritten by Patersons Securities Limited (**Underwriter**).

To comply with the requirement to fully disclose the Underwriter's potential voting power in the Company and the effect of the underwriting by the Underwriter, the table below sets out various scenarios to indicate the effect on the Company's shareholding depending on the Shortfall (if any). The potential maximum increase in the voting power of the Underwriter is set out below (100% Shortfall) and will only occur if no Shareholders take up their Entitlement under the Offer.

Event	Number of Shares of the Company held by the Underwriter	Voting power of the Underwriter in the Company
Underwriter holding as at the date of the Prospectus	Nil	Nil
After issue of Shares to the Underwriter assuming 100% Shortfall	728,847,863	50%
After issue of Shares to the Underwriter assuming 75% Shortfall	546,635,897	37.5%

After issue of Shares to the Underwriter assuming 50% Shortfall	364,423,932	25%
After issue of Shares to the Underwriter assuming 25% Shortfall	182,211,966	12.5%

The calculations above assume that the Underwriter will not increase its holding of Shares prior to the Record Date and/or the close of the Offer. If the Underwriter acquires additional Shares prior to either of these dates, the numbers set out above will vary accordingly. It should be noted that the Underwriter may only acquire additional Shares prior to the Record Date and/or the close of the Offer to increase its voting power to 20% (and not more). If the Underwriter increases its voting power to 20% prior to the Record Date, its maximum potential voting power on completion of the Offer will be 60% (or 874,617,436 Shares).

The number of Shares held by the Underwriter and its voting power in the table above show the potential effect of the underwriting of the Offer. However, it is unlikely that no Shareholders will take up their Entitlement under this Offer (the Directors have indicated that it is their present intention to take up their Entitlement). The underwriting obligation of the Underwriter, and therefore voting power of the Underwriter, will reduce by a corresponding amount for the amount of Entitlements taken up by Shareholders. In addition, the future pattern of shareholding of the Company will change depending on the take up of Entitlements of the other Shareholders.

Further, the Underwriting Agreement gives the Underwriter the right to enter into sub-underwriting agreements to pass on some or all of its obligations to subscribe for the Shortfall under the Underwriting Agreement. The Underwriter has advised the Company that it has entered into a number of sub-underwriting agreements with its clients to take up the Shortfall.

The Underwriter has advised the Company that following the issue of the Shortfall, and also taking into account the issue of any Shares under following the conversion of the Converting Loans, neither the Underwriter nor any of its sub-underwriters, individually, will have a voting power in the Company in excess of 20%. Therefore, the Underwriter will not obtain control of the Company as a result of the Underwriter underwriting the Offer.

7.3 Directors' interests

Other than as set out below or elsewhere in this Prospectus, no Director nor any firm in which such a Director is a partner, has or had within 2 years before the lodgement of this Prospectus with the ASIC, any interest in:
